ZHONGLIAN
Aluminum Profiles

SINCE 1993
100,000 Square Meter
AEPO-PLANE VIEW OF THE FACTORY OF ZHONGLIAN

At ZHONGLIAN we build excellence every day!

Guangdong Zhonglian Aluminium Profiles Co., Ltd. is a large-scale comprehensive aluminum profile factory specializing in developing, designing and manufacturing aluminum extrusions. Occupying an area of 100 thousand square meters, we own 23 extrusion lines and a passionate 50 person team professional at foreign trade marketing.

With more than 30-years experience, our factory is already among China's advanced and leading companies in aluminum profile industry for architectural, decorative and industrial purposes. With an annual output of around 50 thousand tons, anodizing, powder coating, wooden grain color, electrophoresis, polishing and CNC profiles are our most popular and main hot selling products for all the time being.

We kept helping develop tailor made products to meet customers' unique demand, especially those require CNC hole punching, screwing, milling, precision cutting, piece powder coating and anodizing. Our factory has been equipped with a CNC machining center and imported high tech machines to provide great support for this. Unremitting self-improvement and pursuit of excellence is our belief. Keep this in mind, our factory has become a well-known brand name all around China and our profiles have been exported to more than 70 countries for now. Customers from all over the globe are always welcomed to come to our factory for a visit at any time.

THE DEVELOPMENT

COURSE OF ENTERPRISES

▶ 1993 Year

Foshan Nanhai Zhonglian Aluminum Profile Co., Ltd. was established.

▶ 2008 Year

Obtained the quality management system certification and the national industrial product production license.

▶ 2009 Year

Zhonglian obtained the honorary certificate of "China Famous Brand".

▶ 2010 Year

The company launched the "Yalian" high-end brand. In the same year, it obtained a series of certificates such as the Certificate of Adopting International Standard Product Marking.

▶ 2012 Year

Changed Name to Guangdong Zhonglian Aluminum Co., Ltd. Obtained the title of "Top Ten Key Enterprises" and "Guangdong Famous Trademark".

▶ 2014 Year

Obtained the title of "Guangdong Famous Brand Product". Create a sub-brand "Pailian"

▶ 2017 Year

Set up a branch factory for CNC processing aluminum profiles and create a sub-brand "Zhongchang Aluminum"

▶ 2021 Year

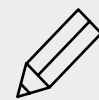

Entered the new modern office of the Ministry of International Trade Annual Export US \$20,000,000

▶ Feature

One-stop solutions

As your one-stop solution for both design, manufacturing, surface finishing and CNC service of your custom aluminum profile, save time and ensure quality, reducing the risk of production.

Unlimited aluminum design

We have 4 aluminum profile engineers with more than 20 years of experience and a number of senior designers, who can customize various aluminum profiles and improved drawing sizes for customers.

Very large dimensions

Compared with other aluminum profile factories, Zhonglian Factory can produce aluminum profiles in a wide range of sizes, especially the production of super-sized aluminum profiles over 300MM is beyond the reach of most suppliers.

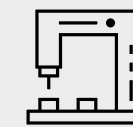

Unparalleled manufacturability

The company has 600 tons to 5000 tons of advanced aluminium profile extrusion equipment, anodic oxidation lines, electrophoretic coating lines, powder spraying profile production line, wood grain production line, and a number of deep processing equipment.

Strict standards

The "Yalian" aluminium alloy profiles produced by the company strictly implement the national GB5237-2017 standard, and have passed the certification of ISO 9001 quality management system and ISO14001 environmental management system certification.

Comprehensive deep processing

Projects can be demanding, and we offer light fabrication services to help get your project complete. Our services include cutting to custom lengths, drilling or countersinking, deburring, punching, forming, bending, and assembly.

亚联铝材

YALIAN ALUMINUM

— Global Brand Since 1993

派联®

PAILIAN®

PAILIAN is one of the sub-brands of Zhonglian Aluminum (YALIAN). Its main products are industrial aluminum profiles and architecture aluminum profiles, which are mainly sold in Europe and the Middle East.

Sub-Brand since 2014

中畅铝®

ZHONGCHANGLV®

ZHONGCHANGLV is one of the sub-brands of ZHONGLIAN Aluminum (YALIAN). Its main products are CNC aluminum profiles, marine aluminum profiles and RV aluminum profiles, which are mainly sold in North and South America and Australia.

Sub-Brand since 2017

PAICHANG®

PAICHANG is one of the sub-brands of ZHONGLIAN Aluminum (YALIAN). Its main products are aluminum tubes and windows and doors aluminum profiles, furniture aluminum profiles, which are mainly sold in Asia, Africa and Southeast Asia.

Sub-Brand since 2021

 Enterprise Management team

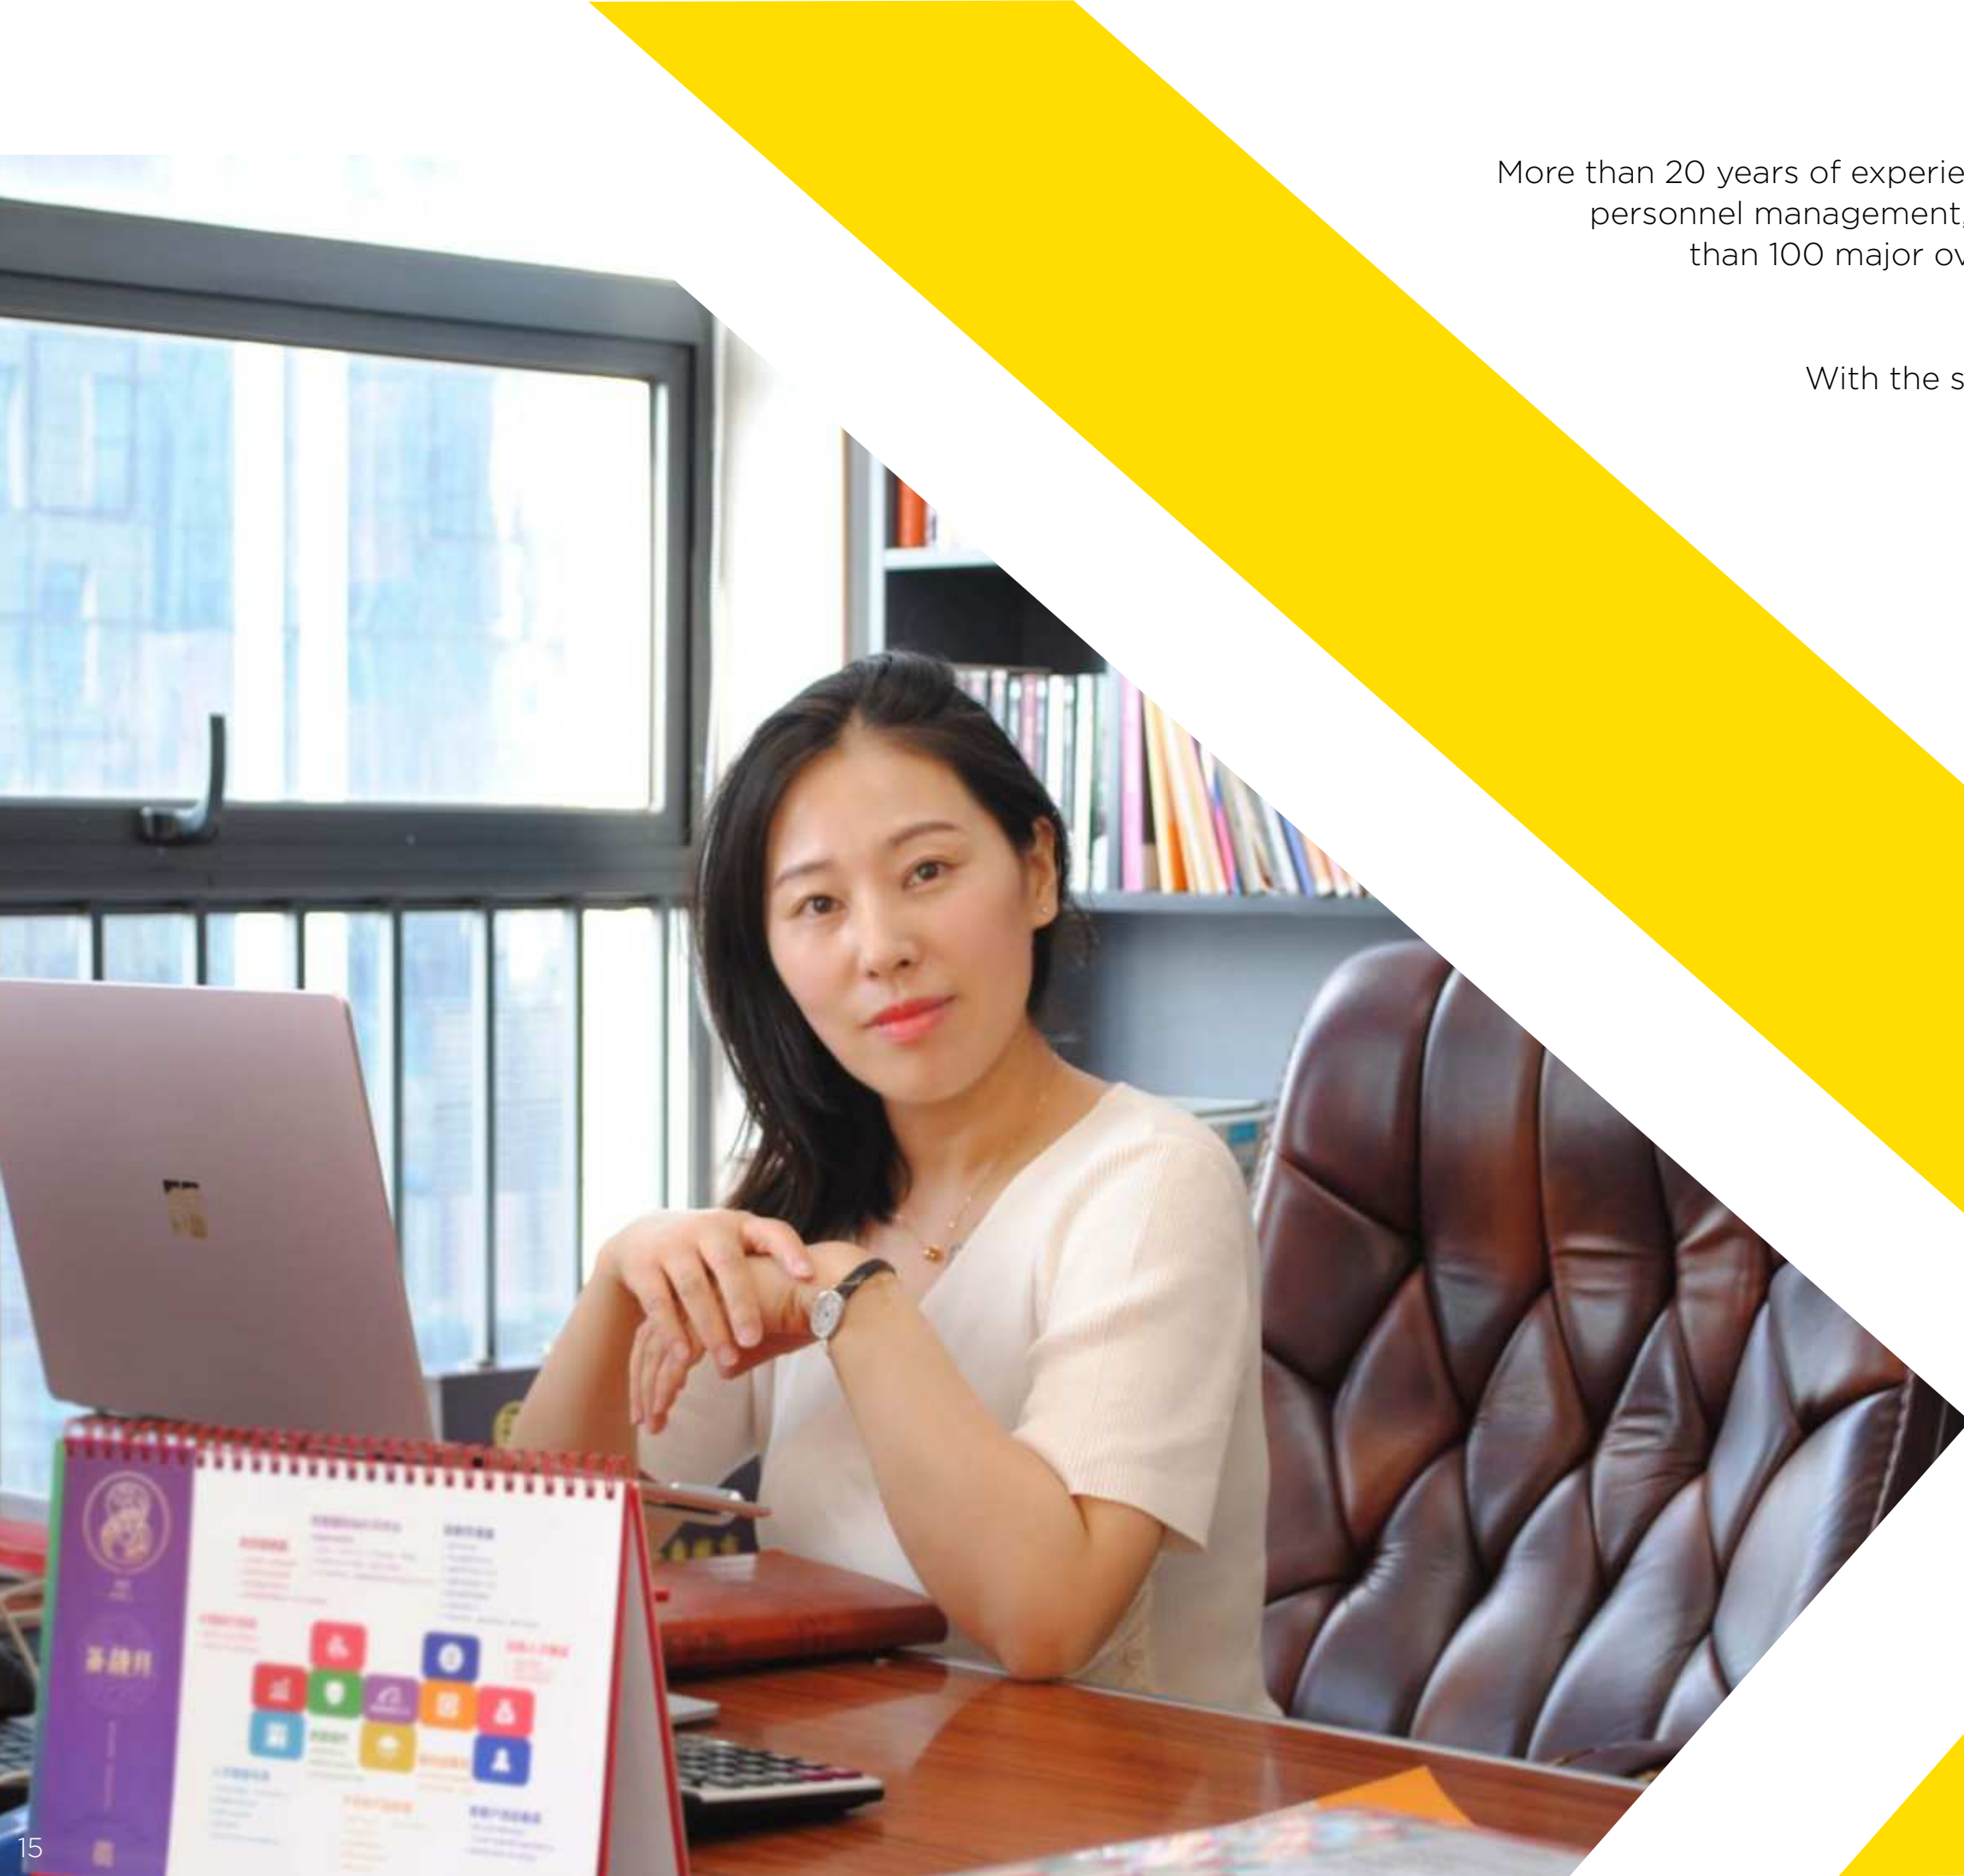

Our business management team has more than 20 years of business management experience and international market experience, enabling our factories to quickly respond to customers' demanding production requirements, aiming to help them win more market shares

 International Trade team

We have an international trade team of more than 30 people and have rich experience in international trade. We are good at helping customers solve cross-border trade problems. We have served more than 70 countries and more than 1,0000 overseas customers.

 Products R&D team

We have our own R&D team armed with an international vision and sophisticated R&D capabilities. More than ten national patents under its belt, the team excels in assimilating global advanced technologies and techniques into its own R&D expertise.

More than 20 years of experience in the aluminum profile industry, good at enterprise personnel management, established long-term strategic cooperation with more than 100 major overseas customers, and led the team to achieve sales of over 100 million US dollars.

With the spirit of "high quality, credibility, strict management and development" as its purpose, constantly forging ahead and reforming.

Production with quality and service.

At ZHONGLIAN, thanks to our high vertical integration, we control all production processes to provide products that stand out for their quality and impeccable technical characteristics. Our industrial facilities include:

Create spectacular building, using the complete ZHONGLIAN technology.

From aluminium rod casting, die development, profile extrusion, uniform sandblasting, anodic oxidation, single and double salt coloring, electrophoretic coating, multi-color powder spraying, wood grain simulation, energy saving and heat-insulating aluminium profiles, and even precision testing, ZHONGLIAN has adopted more advanced international technology, high degree of automation, so that the products.

It is a broad set of aluminium solutions, customised at will, for the implementation of multiple construction designs.

Advantages of ZHONGLIAN technical

- / Advanced equipment and flawless operation for exceptional anodizing surface treatment effect
- / CNC products will conduct sample testing and send samples and testing reports to customers for confirmation.
- / Our CNC centers will allow you to produce highly accurate and quality parts to meet even your most stringent requirements.
- / As your one-stop solution for both manufacturing and surface finishing of your custom CNC machined parts, reducing the risk of production.
- / CNC turning machines are able to provide low cost parts for simple cylindrical geometries.

Advanced equipment, superb technology

ZHONGLIAN knows that good products are inseparable from good production equipment. Therefore, the company continues to spend huge sums of money to introduce various advanced process equipment to create excellent quality.

The ZHONGLIAN team has a group of senior engineers and technicians who are good at innovation and strict quality. They use superb technology to engrave the quality commitment of ZHONGLIAN Aluminum to customers!

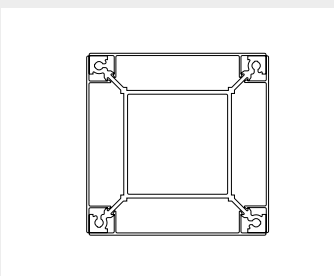

ZHONGLIAN CUSTOM SERVICE

Custom Design & Custom Dies

We have more than 30000 moulds in stock .If our Aluminum profiles are not suitable for you, you could provide us your samples or technical drawings, we can extruded according to your designs.

ZHONGLIAN aluminium aims to offer the best prices, best quality, and best lead times in the aluminum extrusion industry. With an average of 6 to 8 week turnaround on brand new shapes and 4 weeks for special order of stocked dies, ZHONGLIAN is a step ahead of the competition.

Needing somethingfaster? Our customer service team understands the importance of your project and we do our best to meet or exceed any expectations our customers have.

▶ Drawing

▶ Sample

Provide Samples or Drawings

- ▶ If your project demands a custom aluminum extrusion, we will help you engineer and design the perfect die solution for your requirements.
- ▶ ZHONGLIAN aluminiumis committed to providing two things, the highest quality customer service along with the highest quality custom, OEM and stock aluminum extrusions.
- ▶ Whether your project requires a standard shape, or a custom designed die, we're capable of delivering high quality, functional extrusions that meet your tight schedule and budget.

CUSTOM Special-Shape Profiles

3Step.

Step 1:

Export your design to a CAD file format

The file formats predominantly used in CNC machining are STEP and IGES. These formats are open-source, standardized and can be used across platforms.

For best results:

Export your designs directly from your native CAD software into the STEP file format.

Step 2:

Prepare a technical drawing

A technical drawing is not always required for machining parts with CNC. Yet it is recommended to include one in your order as it has information that is not presented in a STEP file.

Step 3:

Get an instant quote & start manufacturing

Send Your CAD files

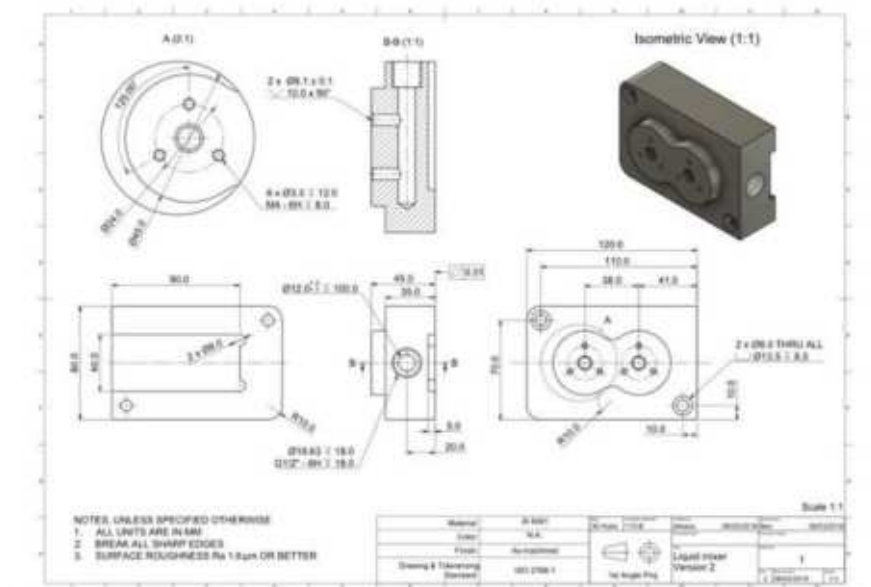

Specify your requirements

Get an instant quote

A technical drawing is required in the following:

- / When your design contain threads
- / When any tolerances are specified
- / When certain surfaces need a different finishing

When ZHONGLIAN takes on a project, your goals become ours. Whether you require custom extrusions or standard aluminum profiles, our experience, and personalized customer service as one of the top aluminum extrusion supply companies, will keep you coming back.

LIGHT FABRICATION

Projects can be demanding, and we offer light fabrication services to help get your project complete. Our services include cutting to custom lengths, drilling or countersinking, deburring, punching, forming, bending, and assembly.

- / Cutting to Length
- / Countersinking
- / Assembly
- / Punching
- / Welding
- / Drilling
- / Small Piece Anodized
- / Mitering Corners
- / Deburring
- / Forming
- / Bending
- / Turning

Your custom extrusion isn't complete until it's ready for installation. ZHONGLIAN custom drilling, punching, and countersinking services allow you to choose your hole size, pattern, and starting location on your custom aluminum extrusion for faster on-the-job application. After cutting, ZHONGLIAN also offers deburring services to create and smooth cut clean edges. Finally, finish off the look of your aluminum extrusion with ZHONGLIAN'S mechanical brushing and polishing offerings or the specialty anodizing and powder coating finishes.

POWDER COAT COLOURS

Our wood grain colour range is textured and reproduced from handpicked natural timbers.

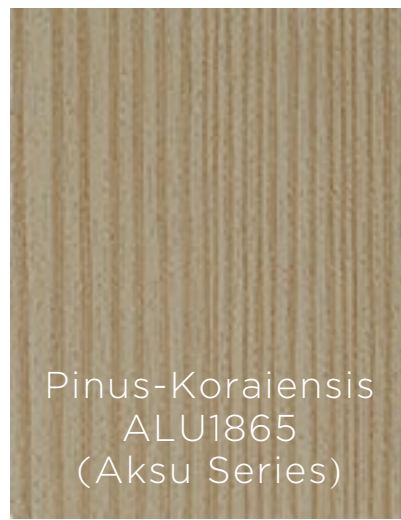

ZHONGLIAN combines the natural beauty and timeless appeal of wood with the capabilities of aluminium. Our specialty powder coating process produces natural wood grain colours that are textured to feel like real wood. All of our aluminium systems and products are available in our extensive range of powder coated and wood grain colours.

15 YEAR WARRANTY Aksu Specialty Coatings

Ensuring a high standard in performance.

Quality and performance is paramount to ZHONGLIAN, so we have teamed up with leading powder coating specialists to create a unique powder that ensures our products will look great for longer.

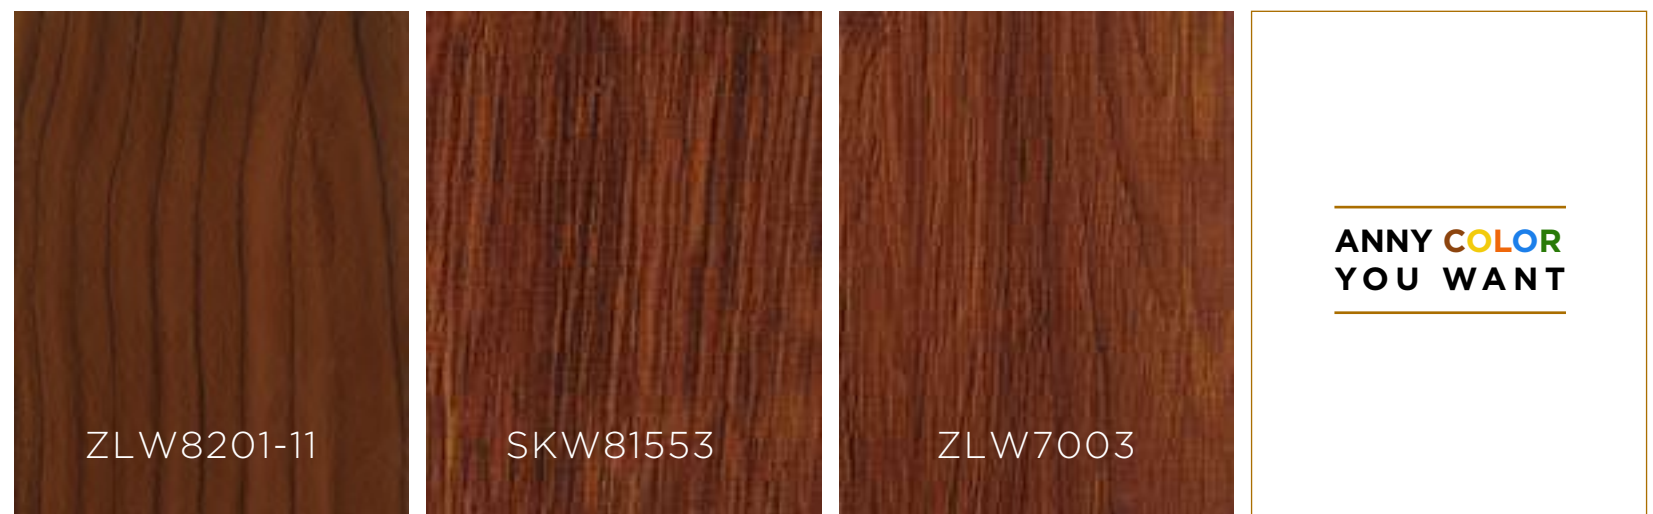

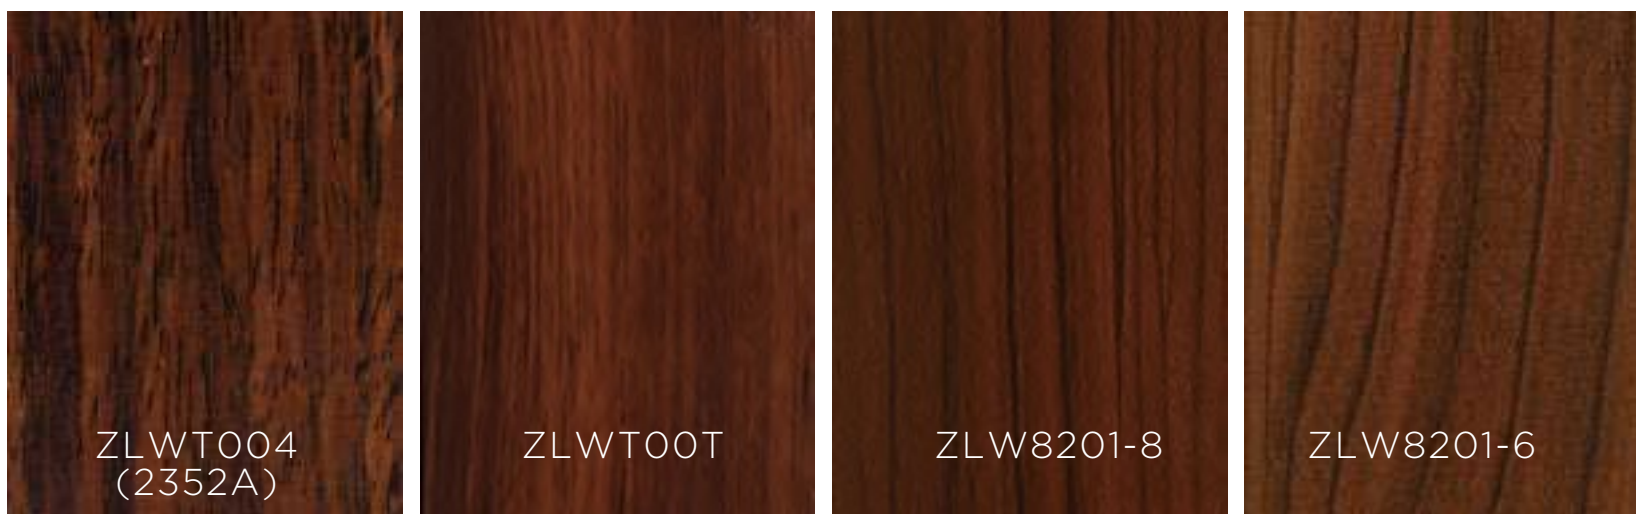

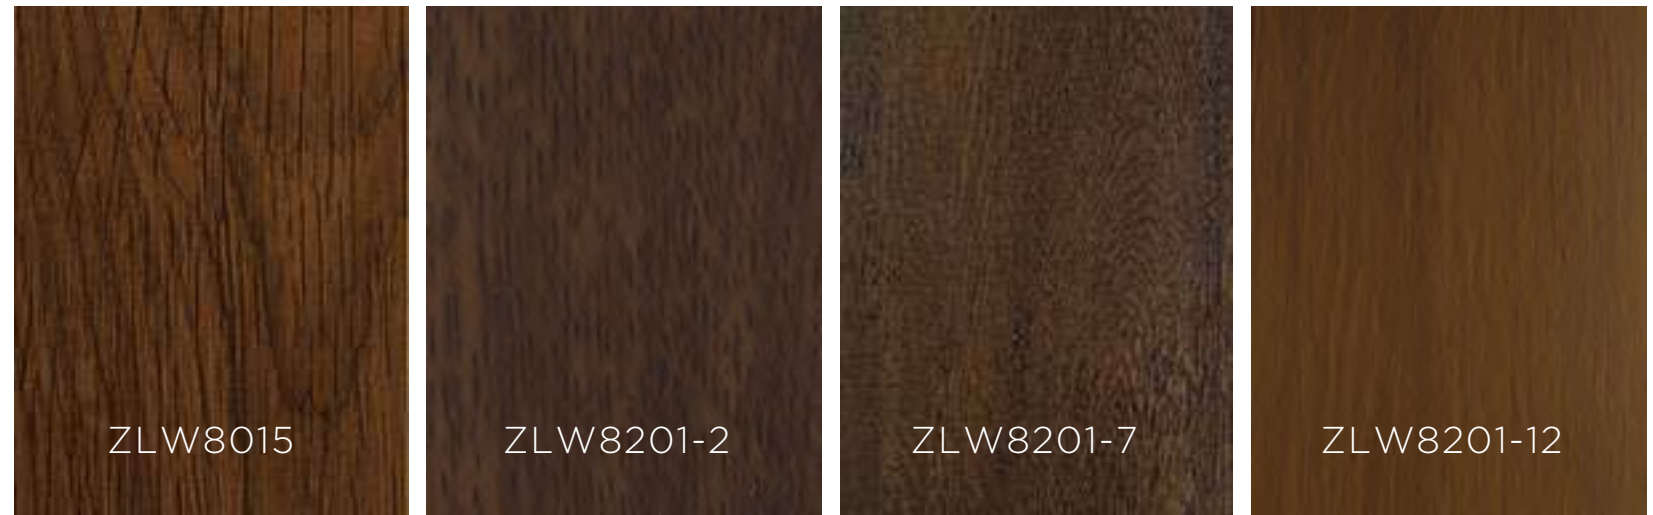

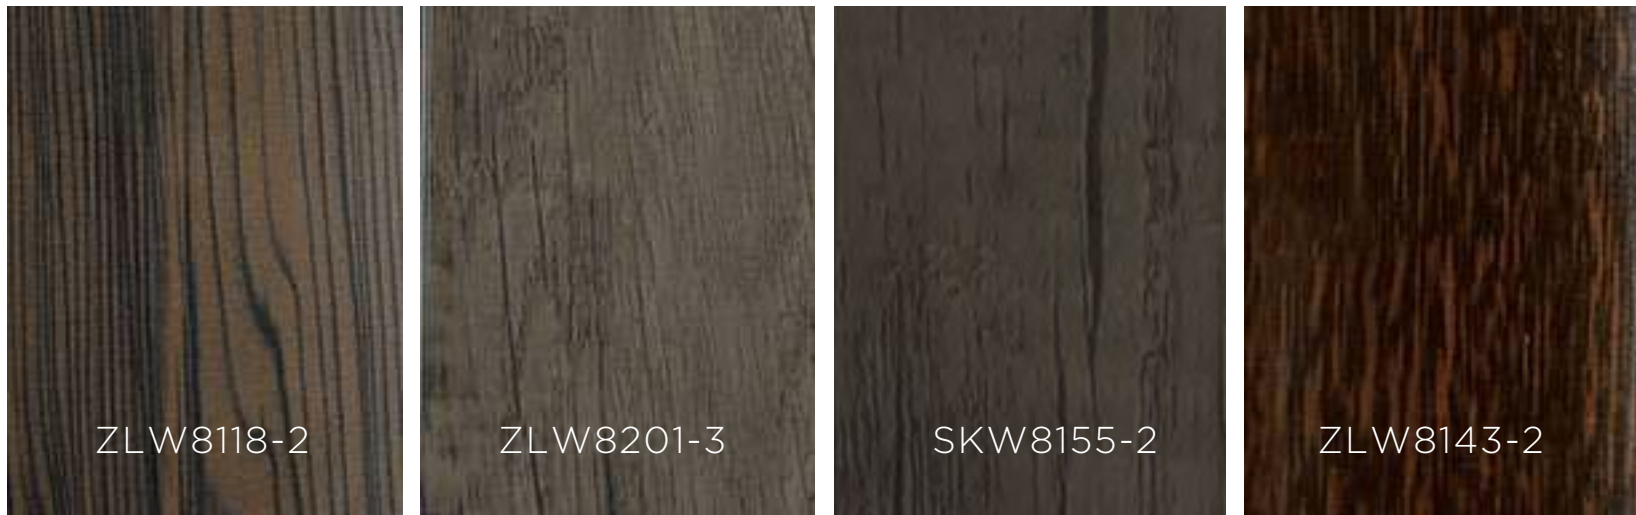

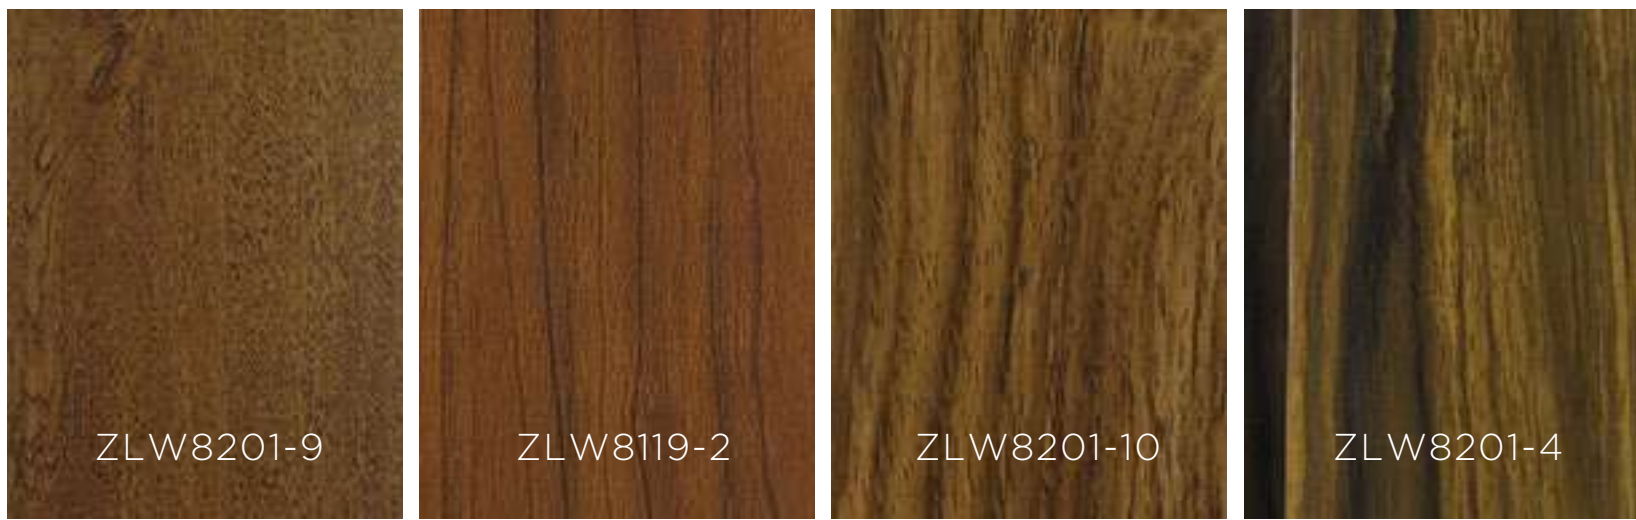

The ZHONGLIAN range of Aksu Wood Grain products are supported by a 15 year performance warranty on the powder coating.

*Warranty applies only to aluminium when coated by an Aksu Wood Grain. Terms and conditions apply.

Aksu wood grain series MOQ is 5 tons, ordinary wood grain is 2 tons

OTHER STANDARD FINISHES

ZHONGLIAN aluminum finishes come in several standard finishes such as anodized finishes to help create the exact look you need.

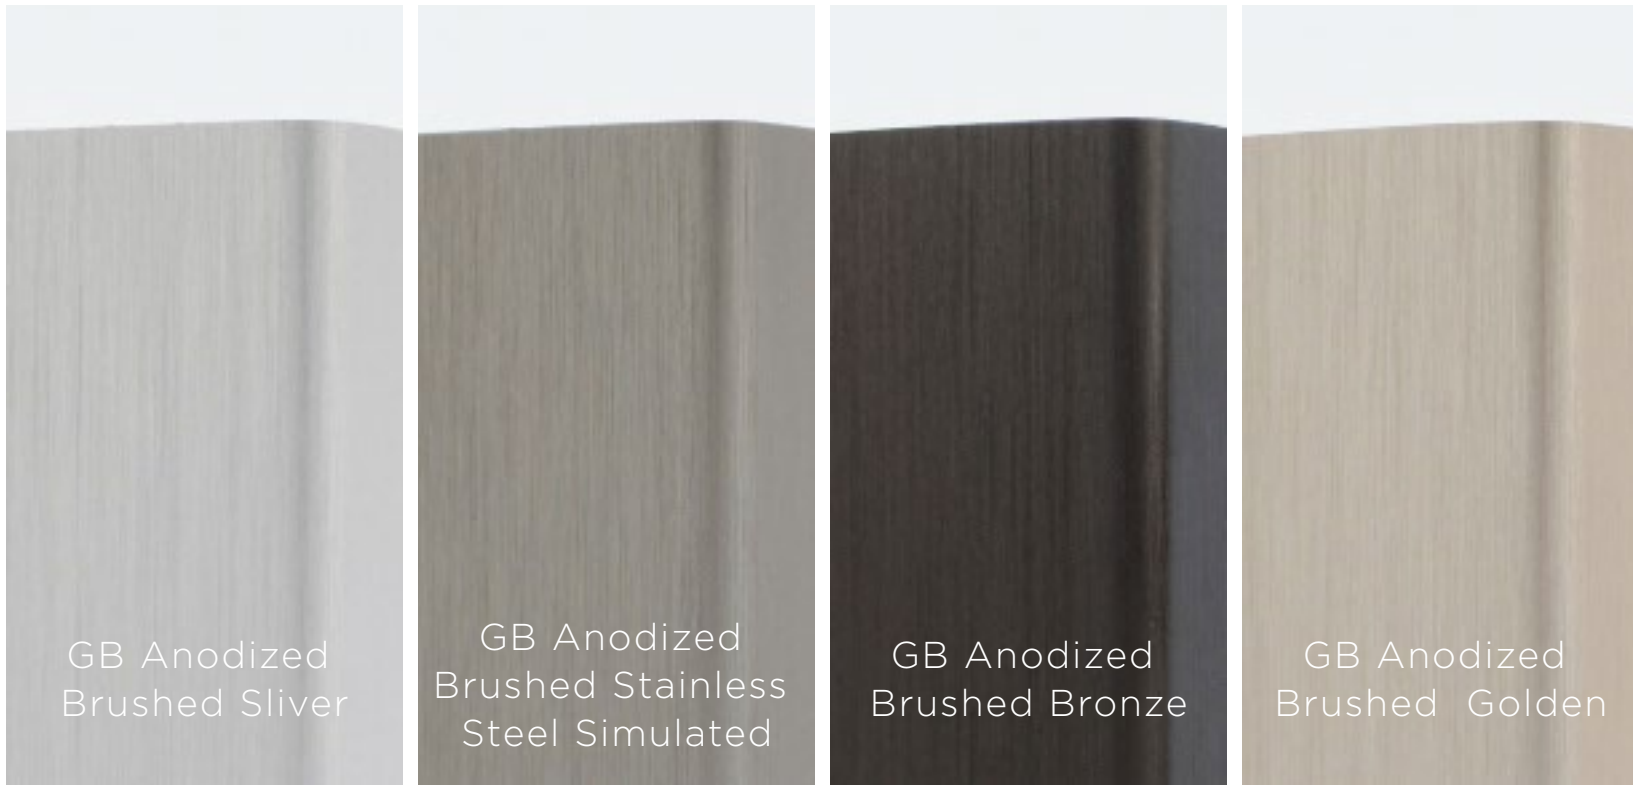

➤ STANDARD GB MATT ANODIZED FINISHES

Aluminum are usually exposed to various corrosive conditions (weather, coastal areas, etc.), thus, ZHONGLIAN, as a pioneering company, adopts the special surface treatment of pre-anodizing and noticeably reduces “filiform” corrosion.

STANDARD BRUSHED FINISHES

Combine brushed with unlimited colors, creating long lasting architectural solutions of unparalleled style and quality.

ZHONGLIAN Project Case

For over 30 years, ZHONGLIAN has been a design and manufacturer of aluminum extrusions. We have forged invaluable partnerships with industry leaders that enable us to provide our customers with one of the largest selections of standard and specialty aluminum profile and finishes available anywhere. Our commitment is to provide customers with high quality products and service that meets their budgets and schedule.

► Our Clients & Partners

Our business is customer satisfaction. ZHONGLIAN was founded in 1993 with the belief that premium products along with outstanding customer service would pass the test of time. Over 30 years later, we still believe our customers' satisfaction drives the way we do business. Over the years, we have cooperated with overseas customers in more than 70 countries and more than 200 regions

► Our customer testimonials

"ZHONGLIAN could readily provide the sizes, shapes and technical benefits of a thermally advanced profile to meet the environmental demands of this northern project."

On-time delivery

We have enough production capacity to meet the customer's order needs, and the logistics company will be arranged as soon as the order production is completed, ready to deliver to our customers at any time. ZHONGLIAN all supplying world-class products at short lead times.

Quality Inspection

From accessories to finished products by professional design team involved in design, production, improvement, the optimal error range is within 1%.The products will pass the product quality inspection of the ZHONGLIAN factory before delivery. Customers can inspect the goods in person or entrust a professional organization to inspect the goods.

Custom Packaging

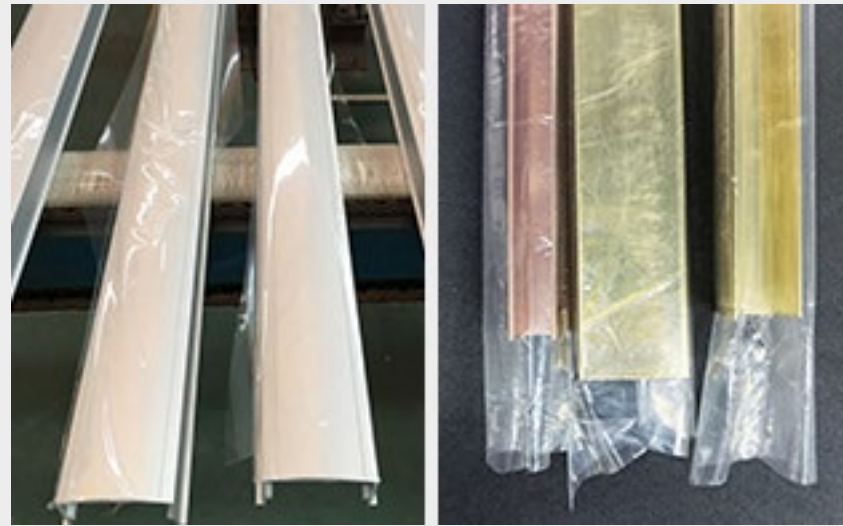

It's all in the details. We want to make sure you are receiving the best quality item. Taking an extra precaution of properly packaging the aluminum to protect the finish is just another step ZHONGLIAN handles to ensure quality.
